

## Program Descriptions

**Ballet/ Hip Hop/Jazz:** K - 5th grade. The foundation of all dance forms in one class. Our class will focus on learning proper dance techniques while encouraging students to step outside of the box by bringing their own individual style and personality to the movements.

**Zumba:** K - 12th grade. Fitness-party with a contagious blend of Latin and international rhythms that provides a fun and effective workout.

**Gymnastics:** K - 12th grade. This class focuses on children of all ages and ability levels, curriculum is specifically designed to help children develop their fundamental gymnastics skills as well as prepare them for more advanced classes. Your kid will flip for the chance to experience all the fun and excitement our gymnastics class has to offer.

**Stunt-nastics:** K - 5th grade. Stunt-nastics is an alternative to regular gymnastics. This movement style encompasses dance, stunts and gymnastics skills set to music for enjoyable and creative routines. For this course, students will be met at their individual skill levels to create individual and group Stunt-nastic performances.

**Dancenastics:** K - 5th grade. This hour long class focuses on the tumbling and acrobatic skills used in dance. In this class students will learn walkovers, aerials, handsprings and much more. Emphasis on core strength and flexibility!

**Tumbling & Back Handspring:** K - 5th grade. This class helps gain skills for any cheer squad. It will focus on drills and strength building to learn a back handspring and other tumbling skills.

**Art Class:** K - 12th grade. Children will explore color mixing, canvas painting, paper mache', printmaking, and sculpting.

**Photography:** 3 - 5th grade. This class will build the knowledge of how to create captivating art through the lens of a camera! Kids will learn the importance of photo composition, different camera settings, and camera angles to elevate their photography skills. We will work outdoors for multiple classes, learn how to digitally edit photos on the computer, and create our own stop motion videos using an app.

**App Building:** 4-12th grade. Learn how to design, code and create iOS apps from start to finish. This program will teach you coding and all the tools you need to design a user-centered experience app.

**Kids In The Kitchen:** K - 12th grade. Get kids cooking with easy recipes and essential kitchen skills, plus ideas and projects for the whole family, and how to make sure your kids are getting the nutrition they need.

**SMART Girls:** 4 - 5th grade. Members discuss the many issues young girls are facing today. The program encourages healthy attitudes and lifestyles that will enable our girls to develop to their full potential.

**Weaving and Sewing:** 3rd-12th grade. Kids will step into the world of string arts as they learn the hands-on processes of weaving, sewing, and stitching. In this class kids will learn how to create their own looms, make circle weavings, design and sew their own felt stuffed animals, stitch pillows and plushies, learn how to embroider basic stitches onto fabric, and more!

**Taekwondo:** K - 5th grade. Our Taekwondo program is designed to teach focus, concentration, muscle development, balance, and gross motor coordination within the context of Taekwondo. Their training will also target behavior development, awareness of others, self-confidence and character development.

**Swimming:** K - 12th grade. The kids will be transported to the YMCA in Glen Cove and back to the Club for pick up. Space is limited. Registration on a first-come, first-serve basis.

**Coding Class:** 3 - 5th grade. An introduction to computer science, our class is designed to demystify "code." Anyone can learn the basics of JavaScript and use it to develop problem solving skills, logic and creativity.

**Science with Seth:** K - 5th grade. Every class with Seth begins with a fundamental question asked by kids every day. Hands-on science is used as a vehicle for engaging, discovering, and learning through actual experience, not just explanation.

**Podcast:** 4 - 12th grade. This class has many educational benefits, including strengthening skills in research, writing, and collaboration. Podcasts are an incredible medium for kids. Audio is imaginative, easy to consume, and you don't need to "make time" to listen to a Podcast. Kids will learn how to create their own Podcast.

**Jr. Leaders:** 3 - 5th grade. Jr. Leader is a community service and leadership program for elementary school kids. The Jr. Leaders will learn how to be a team of young people that will better serve their community and their Club. They encourage each other to make a positive impact for present and future generations.

**LEGO Robotics:** 3 - 5th grade. Kids design, build, and program robots, applying real world engineering, math and science concepts.

**DJ Mixing:** 4 - 12th grade. This is the perfect starting point for anyone looking to become a DJ. Our hands-on instruction will teach kids the fundamentals of mixing, blending, and scratching. We provide all gear necessary for the class.

**Library Club:** K - 5th grade. Our Club kids are transported to the Locust Valley Public Library to participate in activities that promote reading and language development.

**Exploring Art:** 3 - 5th grade. This Art Program will provide activities that will keep our young artists fun and engaged while exploring with different art mediums.
